## Gating Metric Review June 24-August 26

| Metric                                                                                                            | Status – June 24              | Status – July 1                      | Status – July 8                      | Status – July 15                     | Status – July 22                        | Status – July 29                        | Status – August 5                    | Status – August 12                   | Status – August 19                      | Status – August 26                      |
|-------------------------------------------------------------------------------------------------------------------|-------------------------------|--------------------------------------|--------------------------------------|--------------------------------------|-----------------------------------------|-----------------------------------------|--------------------------------------|--------------------------------------|-----------------------------------------|-----------------------------------------|
| This metric determines current disease burden. Increased burden increases rates of transmission                   |                               |                                      |                                      |                                      |                                         |                                         |                                      |                                      |                                         |                                         |
| Rate of COVID-19 cases per 100,000 over 7 days                                                                    | Blue Low Transmission<br>9.8  | Yellow Moderate Transmission<br>13.2 | Yellow Moderate Transmission<br>16.9 | Yellow Moderate Transmission<br>25.9 | Orange Substantial Transmission<br>50.7 | Orange Substantial Transmission<br>95.4 | Purple Extreme Transmission<br>218.4 | Purple Extreme Transmission<br>232.5 | Purple Extreme Transmission<br>224.5    | Purple Extreme Transmission<br>227.2    |
| This metric determines percent positivity. Percent positivity indicates test availability and transmission trends |                               |                                      |                                      |                                      |                                         |                                         |                                      |                                      |                                         |                                         |
| Percentage test positivity over 7 days                                                                            | Blue Low Transmission<br>1.0% | Blue Low Transmission<br>1.3%        | Blue Low Transmission<br>2.0%        | Blue Low Transmission<br>3.1%        | Yellow Moderate Transmission<br>5.0%    | Yellow Moderate Transmission<br>7.5%    | Red High Transmission<br>10.9%       | Red High Transmission<br>10.4%       | Orange Substantial Transmission<br>9.7% | Orange Substantial Transmission<br>9.2% |
| Vaccination rate is calculated based on the City of Milwaukee's adult population (individuals 16 or older)        |                               |                                      |                                      |                                      |                                         |                                         |                                      |                                      |                                         |                                         |
| City Adult Vaccination Rate                                                                                       | 46.4%                         | 47.7%                                | 48.9%                                | 49.5%                                | 50.0%                                   | 50.5%                                   | 51.0%                                | 51.5%                                | 52.0%                                   | 52.7%                                   |
