

## **2021 JFI HIGHLIGHTS**

The Junior Fire Institute was able to resume in-person meetings in 2021, and also was able to hold a shortened in-person annual summer camp with 35 attendees. Although the student population continued to grow, COVID kept regular attendance at Saturday meetings down to roughly 25 students. Our students were honored to once again participate in the American Lung Association Fight For Air Climb, consistently one of the largest groups there, as well as one of the leading fundraisers over the years.
