Investments

The City Treasurer is responsible for managing the City's investment portfolio.

The portfolio consists of general fund pooled cash and various restricted funds. The portfolio balances consist of property taxes collected and other revenues received, including Wisconsin State shared revenue and aid payments, as well as various fines and fees. Since the City's cash flow requirements do not always equal the current fund balance, any funds not needed immediately to meet current expenditures are invested in various investment instruments authorized under Wisconsin State Statutes.

Per Wisconsin State Statutes, one third of all investment revenue goes to the Public Debt Amortization Fund (PDAF), with the balance going to the City’s General Fund. The General Fund investment revenue realized reduces the amount of the property tax levy.
