Subject: Trowbridge School Reopening Update

Dear Trowbridge Families and Staff,

We are pleased to inform you that Trowbridge School has passed its clearance check following the latest round of lead hazard remediation and cleaning. The City of Milwaukee Health Department (MHD) has verified that lead dust levels now meet safety standards, allowing the school to reopen.

Students and staff may return to the building on Friday, March 14. MPS will continue enhanced cleaning and maintenance protocols throughout the building to ensure the school remains safe for students and staff. MHD will remain engaged to support MPS in upholding safety standards. MPS will also work to ensure students and staff only drink from filtered water stations.

We appreciate the patience and cooperation of our families and staff during this process. The health and safety of our students remain our top priority, and we will continue working closely with MHD to ensure Trowbridge remains a safe learning environment.

If you have any questions or would like additional resources on lead safety, please visit:

- **MHD Webpage:** www.milwaukee.gov/MPS-Lead
- **MPS Webpage:** mpsmke.com/mpsleadreport

Thank you for your continued partnership. We look forward to welcoming students and staff back to Trowbridge!

Sincerely,

Home Environmental Health
