

# KILBOURN TUNNELS REHABILITATION PROJECT

Start: April 8, 2019  
Completion: October 2019

## PROJECT OVERVIEW

The rehabilitation project of the Kilbourn Tunnels will take place from April through October 2019. Work on the underground tunnels will consist of replacing leaking expansion joints in both tunnels and replacing a portion of the tunnel ceiling in the south tunnel.

## WHAT TO EXPECT DURING CONSTRUCTION

To minimize how construction will impact residents, businesses, and the traveling public, the project will be split into two stages:

Stage 1: The North Tunnel (I-43 northbound entrance ramp) will be fully closed to traffic from early April to June.

Stage 2: The South Tunnel (I-43 northbound exit to Kilbourn Ave) will be fully closed to traffic from June through October.

Traffic Detour: Advanced warning signs will be installed for the tunnel closures and posted signs will direct motorists to use the Fond du Lac/McKinley I-43 entrance/exit and North 6<sup>th</sup> Street.

Parking: On-street parking will be restricted during limited short-term lane closures on North 9<sup>th</sup> Street from West State Street to West Wells Street during both stages. In addition, short-term single lane closures from MacArthur Square parking garage is planned. We anticipate one exit lane from the garage onto North 9<sup>th</sup> Street to be closed for 2-3 weeks during Stage 2.

Pedestrian Access: Short-term sidewalk closures on North 9<sup>th</sup> Street from West State Street to West Wells Street will occur during expansion joint work. Signage will be provided at crosswalks to direct pedestrians to the opposite side of the street.

The pedestrian ramp from MacArthur Square Plaza and the parking garage stair access from North James Lovell Street will be closed during Stage 2.

Construction Hours: Work is allowed from 7:00 a.m. to 9:00 p.m.

All work is weather dependent and subject to change

*Business Owners- Contact the business liaison and visit our website Milwaukee.gov/supportforbusiness for guidance during construction*
