

NORTH 60TH STREET RECONSTRUCTION PROJECT

FROM W. HAMPTON AVE. TO W. CAPITOL DR.

PRE-CONSTRUCTION MEETING

We are hosting a teleconference meeting for the public on Tuesday, April 28th from 4:00 pm to 5:00 pm. Please feel free to call in to ask the project team any questions. Call 262-383-3004 and enter the conference id 14703605#.

PROJECT OVERVIEW

The Department of Public Works, in conjunction with the State of Wisconsin Department of Transportation, will reconstruct N. 60th St. from W. Hampton Ave. to W. Capitol Dr.

The project will consist of removing the deteriorated pavement and replacing it with new concrete pavement, curb & gutter, driveway approaches and sidewalk, where necessary. Street lighting and traffic signals will be updated and storm sewer inlets and laterals will be replaced as needed. In addition, the bridge deck over the Lincoln Creek will be replaced. Once completed, the roadway will accommodate two driving lanes, a bike lane in each direction and a parking lane for the majority of the project limits. The parking lane on the east side of North 60th Street between West Capitol Drive and North Fond du Lac Avenue will be eliminated.

The majority of the project is scheduled to be complete in October 2020 with landscape and electrical work planned in 2021.

WHAT TO EXPECT DURING CONSTRUCTION

To minimize how construction will impact residents, businesses, and the traveling public, the project will be split into two major stages:

STAGE 1: The west side of North 60th Street (southbound) will be closed for construction. Majority of the side streets on the west side of the project will be closed. One lane of traffic in each direction will be maintained on the east side of the roadway. On-street parking will be restricted.

STAGE 2: The east side of North 60th Street (northbound) will be closed for construction. Majority of the side streets on the east side of the project will be closed. One lane of traffic in each direction will be maintained on the west side of the roadway. On-street parking will be restricted.

email: moconnor@milwaukee.gov

SCHEDULE

Start: May 4, 2020
Completion: End of
October 2020

PROJECT MAP

DRIVEWAY ACCESS

Commercial driveways: There will be disruptions to driveway access such as when the contractor is breaking and removing pavement, grading, putting in curb and gutter, and paving.

Residential driveways: Access will be restricted in the work zone. Temporary overnight parking permit instructions are provided.

Project staff will notify property owners 48 hours in advance when any driveway is being removed and rebuilt.

TEMPORARY OVERNIGHT PARKING

If this construction project prohibits access to your off-street parking space and you must park on the street at night, you must obtain Night Parking Permission. Night Parking Permission is a courtesy offered by the City of Milwaukee to residents and visitors who have short term needs to park overnight on the street without purchasing a night parking permit. To receive Night Parking Permission, please call the Night Parking Desk at (414) 286-8300, Sunday through Friday, between 7:00 a.m. and 1:00 a.m. Night parking regulations are not enforced on Saturday nights.

Night Parking Permission for construction expires after 30 days. If the project goes longer, you must call the Night Parking Desk again for another permission.

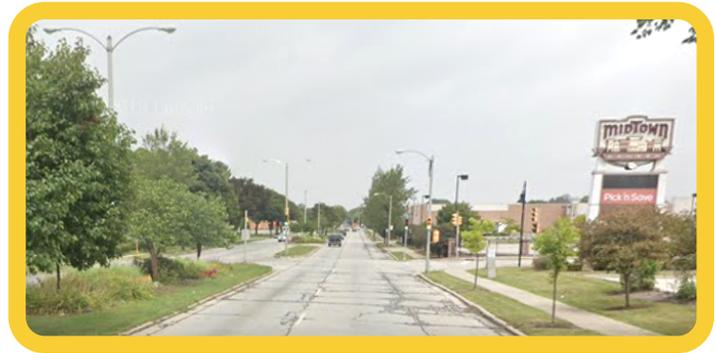

SIDEWALK

Pedestrian access will be maintained to abutting properties during construction with the least amount of inconvenience. Short-term disruptions will occur when sidewalks are being removed and rebuilt.

BUS ROUTE

This project will affect the MCTS BlueLine & Route 76 (via N. 60th) bus service. Updates can be found at www.ridemcts.com.

- The BlueLine (Fond du Lac Ave-Congress St Branch) will detour off Congress between 60th St. & Hampton. Buses will use Fond du Lac Ave., Hampton Ave. and 68th St.
- The BlueLine (Fond du Lac Ave-Mill Rd Branch) will detour off 60th St. between Congress and Villard. Buses will use Fond du Lac Ave, 68th St. and Villard Ave.
- Route 76 (N 60th St) can anticipate delays.

CONSTRUCTION HOURS

Work is allowed Monday through Friday from 7:00 a.m. to 9:00 p.m. The sawing of mainline concrete pavement outside of 7:00 a.m. - 9:00 p.m. will be allowed due to the fact it has to be completed right after "initial set" and before random cracking occurs. The placement of the mainline concrete pavement is a critical milestone in keeping these large paving projects on schedule.

Any work scheduled on weekends will need approval from the Department of Public Works.

SUPPORT FOR BUSINESS PROGRAM

The City of Milwaukee Department of Public Works offers the Support for Business Program to help assist local merchants and minimize any problems during a construction project. If you are a business owner along the project corridor, we encourage you to connect with the Project Liaison. Please visit the website Milwaukee.gov/supportforbusiness to learn more about the tools and services available to you. Feel free to contact the liaison if you have any questions or concerns related to this project including signage, sidewalk and driveway access, parking, maintaining delivery operations or trucking services, or planned special events.

STAY CONNECTED

Nextdoor

This material is available in alternative formats for individuals with disabilities upon request. Please contact the City of Milwaukee ADA Coordinator at (414) 286-3475 or ADACoordinator@milwaukee.gov. Provide a 72 hour advance notice for large print and 7 days for Braille documents.
