

# NORTH TEUTONIA AVENUE RECONSTRUCTION PROJECT

## WEST GARFIELD AVENUE TO WEST GROELING AVENUE

CONSTRUCTION UPDATE AUGUST 2019

The reconstruction project of North Teutonia Avenue from West Garfield Avenue to West Groeling Avenue started in May with utility relocations and pavement removals.

To date, most of the North Teutonia Avenue reconstruction project work has been removals, grading, graveling and underground work. The contractor has encountered unforeseen underground conditions that have cause minor delays in his operation, but is still on schedule to have the roadway back open to traffic in December.

The contractor has completed storm sewer work in this stage and is in the process of installing storm sewers in the northbound lanes of Teutonia Avenue to accelerate the schedule for stage 2 of construction. Progress has been made in curb and pavement placement at the available intersections.

As the project moves to above-ground work in early September, progress will accelerate by the contractor restoring the sidewalk, pouring the mainline concrete pavement and finishing the curb on the west side of the street.

All work is weather dependent and subject to change. Please contact the project staff if you have any questions or concerns related to this project.
