

Survivors of Domestic and Family-Based Violence Resource Directory

Milwaukee Department of Community Wellness and Safety

Background

Created by the City of Milwaukee Common Council in 1979, the Commission on Domestic Violence and Sexual Assault provides Milwaukee with a multidisciplinary team of experts and community leaders that work together to increase safety for victims and survivors of domestic violence and sexual assault and to hold perpetrators accountable and change their behavior. Professionals in the fields of domestic violence and sexual assault are available for consultation, training, and presentations. For more information, please contact the Commission Coordinator at (414)-286-2997.

The organizations included in this directory can provide information and referrals to all residents of Milwaukee. Eligibility for some services and programs may depend on a variety of factors related to an organization's grant funding or applicable laws. Factors that may limit eligibility include place of residence, income level, immigration status, or whether an individual is a survivor of domestic or gender-based violence. To update your organizations' information or to add your organization, _____ call 414-286-5468.
