

# How to find a doctor or hospital in our network

Members will pay a lower coinsurance by choosing a Tier 1 provider.

If you are a current UnitedHealthcare plan member, finding a provider and their Tier 1 designation is easy at [myuhc.com](http://myuhc.com)<sup>®</sup>

1 Log in to [myuhc.com](http://myuhc.com) and click on Find a Doctor

2 Click on Medical Directory

3 Fill in your search criteria and make your selection by provider specialty, facility or condition.

4 View and select your doctor from the list provided, note the "Tier 1" designation next to the provider name.

5 If your selected physician is NOT designated as a "Tier 1" provider, click on the name and then;

6 If the provider's specialty is listed as "Not Evaluated" you will not be charged a higher co-insurance amount.

# Choose with confidence.

The UnitedHealth Premium Program makes it easy for you to find network doctors who meet national standards for quality and local market benchmarks for cost efficiency. Review your options and **choose a doctor with confidence.**

## The choice is yours.

The UnitedHealth Premium program can help you find the care you want. The program evaluates doctors in different medical specialties, using national standards for quality and local benchmarks for cost efficiency. You can use this information to help you choose the care that's right for you.

## Make the most of your benefits.

Members in the City of Milwaukee health plans pay lower co-insurance amounts for services provided by UnitedHealth Tier 1 physicians.

## Possible designations a doctor can receive

The chart shows the two possible designations a doctor can receive to be a Tier 1 physician. It also shows the designation if a doctor meets one criteria but not the other."

UnitedHealth Premium Program	Meets Quality criteria	Meets Cost Efficiency Criteria	UnitedHealth Premium Program
Quality & Cost Efficiency	✓	✓	✓
Cost Efficiency & Not Enough Data to Assess Quality	Not enough data to measure.	✓	✓
Quality & Not Enough Data to Assess Cost Efficiency	✓	Not enough data to measure.	
Quality & Did Not Meet Cost Efficiency	✓		

If a doctor does not have a Premium designation, it does not mean he or she provides a lower standard of care. It could mean that the data available to us was not sufficient to include the doctor in the program. All doctors who are part of the UnitedHealthcare network must meet our credentialing requirements (separate from the Premium program).

## UnitedHealth Premium specialties

- Allergy
- Cardiology
- Ear, Nose and Throat (ENT)

- Internal Medicine
- Nephrology
- Neurology
- Obstetrics and Gynecology
- Orthopaedics
- Orthopaedics - Spine
- Oncology
- Pediatrics
- Pulmonology
- Rheumatology
- Urology

The UnitedHealth Premium® designation program is a resource for informational purposes only. Designations are displayed in UnitedHealthcare online physician directories at myuhc.com.®. You should always visit myuhc.com for the most current information. Premium designations are a guide to choosing a physician and may be used as one of many factors you consider when choosing a physician. If you already have a physician, you may also wish to confer with him or her for advice on selecting other physicians. Physician evaluations have a risk of error and should not be the sole basis for selecting a physician. Please visit myuhc.com for detailed program information and methodologies.

Only individual physicians that meet UnitedHealth Premium designation criteria, or physicians in designated specialties who are part of medical groups that meet UnitedHealth Premium criteria for group practices and who have sufficient claims data for analysis, may be designated. All physicians that contract with UnitedHealthcare have met credentialing requirements. Regardless of designation, plan enrollees have access to physicians in the UnitedHealthcare network as described in their benefit plan. Specialties for which there are no quality guidelines currently established in the program are excluded from evaluation and are noted as such.

The assessment result "Not Enough Data to Assess" is not an indicator of the total number of patients treated by the physician or the number of procedures performed by the physician. Rather, it reflects the statistical requirements of the Premium designation program, which includes only health plan claims associated with specific program measures and relevant to the physician's designated specialty. In some cases, there may not be enough data to complete the analytic process from a statistical standpoint.
