

Statement of Ald. Mike McGee, Jr.
April 27, 2007

I want to express my outrage at the conditions found at a supposed health care clinic in my district – Milwaukee Immediate Care Center, 1971 W. Capitol Dr.

There are flooding problems, expired medications, exposed rat bait, asbestos floors, and reports of biohazard bags being improperly discarded in the basement. The Department of Neighborhood Services is investigating the property, and I'm calling for Immediate Care to be immediately shut down.

I wouldn't send any person to a facility so unsafe and unsanitary, and I urge Milwaukee residents to report similar conditions they find at other neighborhood clinics and care centers.
