Masonry Cleaning – Exterior

Masonry cleaning entails the use of abrasive, chemical, water, steam or other method to remove paint, dirt, and oxidation from the surface of a commercial or residential building. Masonry cleaning can involve the use of hazardous chemicals and abrasive blasting techniques that can create undesirable air emissions, safety hazards and community nuisances. Therefore, the City requires that a permit be obtained by a property owner or contractor prior to conducting exterior masonry cleaning of a building anywhere within the city of Milwaukee.

To obtain an exterior masonry cleaning permit, a contractor or property owner must submit:

- a) a completed application and a masonry cleaning worksheet, along with a the application fee to the Development Center.
- b) a detailed sketch or diagram of the proposed work area indicating all controls to be used to minimize the creating of environmental contamination or public nuisance.
- c) copies of all applicable Material Safety Data Sheets for chemicals to be used as part of the cleaning method.

Other information may be requested by inspectional staff before the permit is issued.

The plans will be thoroughly reviewed for applicable health code compliance and followed by daily on-site inspections. Inspectors will monitor all phases of the project and work closely with the property owner, contractors, architects and consultant to ensure thorough code compliance. At completion of the project, a final inspection is performed to ensure that the project was conducted properly and there is no evidence of risk to the environment or public as a result of exterior masonry building cleaning activities.

Specific questions regarding masonry cleaning permit applications should be directed to the Environmental Section at (414) 286-3280.

If you need to erect scaffolding for the cleaning project, and if the scaffolding will extend over the sidewalk, you need to get a permit to occupy the public right of way. For information about this permit, contact the Milwaukee Development Center's Public Right of way Permits at (414) 286-8208.

Please note that certain types of masonry cleaning methods may not be permitted on a building with a historical preservation designation. For buildings with this designation, contact the Historic Preservation Commission at (414) 286-5722 before you start your project.

MASONRY BUILDING CLEANING WORKSHEET

Fee is \$76.20* per day for each full or partial day of masonry cleaning. Check or money order, (including the \$6.00 processing fee) along with a completed Worksheet and Application for Permit must be submitted to the Department of Neighborhood Services Environmental Section, 841 N. Broadway, Room 105 – Milwaukee, WI 53202 BEFORE WORK MAY BEGIN

1) Building location _____

2) Name, Address & Phone # of Building Owner _____

3) Has building been designated a Historical Site by the city? No Yes

4) Dates & Times of Cleaning Operation _____

5) Name & Address of Applicant _____

6) Name and Phone # of Contact Person _____

7) Will **painted surfaces** be treated during the operation? No Yes

If **YES**, attach laboratory reports indicating the concentration of lead in all types of paint to be treated. Removal of paint containing more than .06% lead by weight requires the implementation of both environmental and occupational controls to limit exposure.

Precautionary Measures: Attach a project plan showing regulated areas, storm/sanitary sewer inlets, location of drop cloths, drop curtains, collection screens, water retention barriers, pH adjustment areas and other measures necessary to protect the environment, the public and employees on or near the job site.

8) Type of cleaning: Chemical Cleaning Water Blasting Dry Abrasive Blasting
 Wet Abrasive Blasting Other

9) Chemical or trade names of all detergents, chemicals, acids and cleaning materials to be used in this operation (**attach Material Safety Data Sheets**) or type of abrasive material used.

The Department of Neighborhood Services must be notified prior to or on the date listed on the permit if no work will be done on that date. Failure to notify us will result in the forfeiture of your permit fees for that date. *Fee includes a 1.6% training and technology surcharge.

Date _____ Applicant _____

INSTRUCTIONS
 1.Type or print. Please use black ink.
