Transform Milwaukee Jobs Program (TMJ)

TMJ is an employment program that offers unemployed residents immediate work. TMJ is a component of Wisconsin's Department of Children and Families. The purpose of the TMJ is to enhance employment opportunities for people who have difficulty entering and succeeding in work. The TMJ employment strategy helps individuals overcome employment barriers and transition into work using wage-paid, short-term employment that combines real work, skills training, education and supportive services. TMJ also offers job coaching, employability planning, life skills development and limited vocational training, as well as job search assistance.

TMJ promotes self-sufficiency by providing time-limited, publicly-funded, wage-based jobs in public, non-profit or for-profit settings. The goal is to help these residents gain a foothold in the labor market with jobs that are available in the public and private sector. TMJ's combination of training, work experience, case management, and supportive services will produce positive results for the Milwaukee job seekers and the employers who "hire" program participants.
